Materials **Stainless steel**

The coupling parts are made of acid-proof stainless steel - AISI316, certified according to EN 10204-3.1. The products comply with applicable legislation regarding materials and articles intended to come into contact with food. The legislation includes EU Directive 1935/2004 of October 2004, which confirms that the product is suitable for direct contact with food.

Packing Material

The sealing materials are made of Viton, FKM 75 and O-rings of Viton FKM 239961 or Viton FKM 180497. In accordance with EU Commission Regulation no. 1935/2004 of October 2004, the product is intended to be used in direct food contact. Specific characteristics and limitations for the use in food contact are set out in the supplier's declaration of compliance.

Grease

The grease ROCOL PUROL grease is designed for use as a release agent (3H) on grills, ovens, baking sheets, boning benches, chopping boards, or other hard surfaces in contact with meat and poultry food products to prevent food from adhering during processing. The product is manufactured in accordance with EU Directive 1935/2004 of October 2004 on materials and articles intended to come into contact with food. Specific characteristics and limitations for the use in food contact are set out in the supplier's declaration of compliance.
